

# TECH TEACHER FORUM ONLINE

## presents the first meeting of the **Tech Teacher Forum**

- \* Do you spend endless hours making antiquated equipment, that the manufacturer has abandoned, work like new again?
- \* Do you get excited when a USB port actually works?
- \* Do you stay away from the teachers' lounge because you're tired of fielding questions such as "why doesn't my printer work" from the same person who just last week discovered the "power-on" button on their surge-protector.

YOU NEED TO MEET WITH US!**

Towne Center (Carson & 605 Fwy)
